1. SCOPE

The scope of the Release Notes is to provide all the necessary details & key characteristics of the current release, which helps the customer/stakeholder to determine the specification of the release.

2. ABOUT THE PRODUCT

The purpose of the *Allegro Microsystems Motor Control FOC Example Code* is to provide a fully open sensorless FOC control framework based on a sliding-mode observer. This code is intended for demonstration and reference purposes only and is not suitable for production use.

The Release consist of a set of C header files and source code for review.

3. ABOUT THE RELEASE

<i>Version Number</i>	<i>Release Date</i>	<i>Release Type</i>	<i>Release Package</i>	<i>Delivery Media Type</i>
v1.0.1 (Beta)	29-01-2026	Internal/External	A89201_MotorControl_FOC_ExampleCode	Allegro Software Portal

4. LICENSE

Please refer to the license folder in the release pack for detailed licensing terms and conditions.

5. RELEASE APPROVAL

<i>Approval Type</i>	<i>Reason for conditional approval</i>	<i>Approver name & IDs</i>
Conditionally Approved	Test Coverage in progress	Oscar Luna / Software Engineering Manager
Conditionally Approved	Test Coverage in progress	Masahira Kurihara / System Engineering Manager

6. CHANGES IMPLEMENTED

<i>Feature/Requirement ID</i>	<i>Description</i>	<i>Comments</i>	<i>Type of Change (feature/bugfix)</i>
N/A	Added motor control FOC example files	Beta version release for A89201_MotorControl_FOC_Example Code	Feature

7. INSTALLATION PROCEDURE

Please Refer to the Docs\ A892xx Single-Shunt Sensorless FOC Motor Control Example Code Application Note.pdf for detailed installation instructions.

8. CONFIGURATION PROCEDURE

Please Refer to the Docs\ A892xx Single-Shunt Sensorless FOC Motor Control Example Code Application Note.pdf for detailed configuration instructions.

Disclaimer statement: Documents printed to hard copy or saved to personal computers are considered to be UNCONTROLLED REFERENCE COPIES.

10. KNOWN BUGS

Bug ID	Description	Workaround	Comments

11. TEST COVERAGE

Tests in progress

Disclaimer statement: Documents printed to hard copy or saved to personal computers are considered to be UNCONTROLLED REFERENCE COPIES.

12. LIMITATIONS & DEPENDENCIES

Allegro uses ARM Keil uVision v5.28.0.0 as a formal toolchain.
CMSIS Software Pack v5.6.0
C Compiler v6.12
Assembler v6.12
Linker v6.12

13. SUPPORT

Support is available by contacting through Allegro Customer Portal;
